Note: The acquisition of 100% equity interest in China Energy Hangjin Energy Co., Ltd. (“**Hangjin Energy**”) by the Company has been completed. From February 2025, the major operational data of the Company incorporates the relevant business volumes of Hangjin Energy, and the major operational data of the Company for the corresponding period last year has been restated.

In March 2025, the Company’s coal production remained at a high level, with the combined loading volume at the two ports remaining stable, and the fulfillment rate of medium- and long-term coal contracts remained at a relatively high level. Due to weaker downstream demand for coal, the sales volume of purchased coal, railway transportation turnover, shipping volume, and shipment turnover have all decreased.

The major operational data above was calculated based on the internal statistics of the Company. Operational data may show major differences from month to month. The factors giving rise to such differences include, among others, changes in weather, equipment overhaul, seasonal factors and safety inspection. The major operational data may somewhat differ from the data disclosed in the relative periodic reports. Investors are hereby reminded of the risks that may result from inappropriate reliance upon or utilization of the information given above.
